Remarkable Plot Alleged.

New York, July 21.—According to statements made by the milliner's apprentice, Miss Mabel MacCauslin, a remarkable plot was revealed to manufacture evidence against Frank Gould in the suit for divorce which his wife, Helen Kelly Gould, recently brought against him. Two arrests were made by the district attorney's office. Harry Mousley, a private detective, and Miss Julia Fleming were the persons arrested. The police also expressed a desire to question Mrs. Ben Teal, wife of a well known stage manager. The arrests were made Monday night. Both her husband and attorney said Mrs. Teal is the victim of unfortunate circumstances.

### BABY'S BODY IN STOVE.

Cleveland Physician Is Held on an Awful Accusation.

Cleveland, O., July 21.—Norman N. Greer, a well known physician, is held without bail on charge of murder following the discovery of the body of a babe in the stove of his office. A neighbor who saw smoke coming from the office turned in a fire alarm. A big fire was found in the stove. The baby's body is slightly burned. Greer will not talk.

### Son Accidentally Kills Sire.

Fort Worth, July 21.—James West of Grapevine, this county, was prying the hammer of an old revolver when the weapon discharged. The bullet struck the boy's father in the neck, death resulting in a few minutes.

### CAMPBELL AND TAXES.

Governor States the State Will Cut the Rate.

Sherman, Tex., July 21.—Governor Campbell passed through Sherman on his way from Paris to Collinsville, this county, where he spoke to a large crowd Tuesday. He took occasion at the depot to refer to the fact that the commissioners of Grayson county had cut the tax rate down, and said the state would do the same thing. He declared the purpose of the law was to make the big corporations pay their just proportions of the taxes, and asked his friends her to help uphold the Democratic platform. His speech at Collinsville was along lines mentioned before. He had a large and enthusiastic audience.

### ISSUES STATEMENT.

Attorney General Answers Kirby's Denial of Delinquency.

Austin, July 21.—Attorney General Davidson issued a statement answering John H. Kirby's denial of delinquency in tax payments in Jasper, Tyler and Nacogdoches counties and denying the ownership of any property in Nacogdoches county. He produces a certified copy from the comptroller's department to prove that the Kirby Lumber company owes delinquent taxes in Nacogdoches county. He refers to Kirby's denial of responsibility for the editorial utterances of the Austin Statesman, owned by him, the editor of which is in his employ, he states, and says that this paper has descended to such depths of abuse and misrepresentation that even Kirby repudiates its utterances.

### Deer Depredations.

Austin, July 21.—The attorney general and game warden are holding complaints from Gillespie and adjacent counties of depredations by deer, which are eating seed potatoes and corn and even, one may say, running over the maiming people who do not get out of their way. Farmers write to ask what relief they have, as they cannot kill them and fences will not keep them out. The deer is said to be increasing rapidly. Complainers are answered that the law provides no relief and no redress for them and they must keep watch and try to make the best of conditions.

### Bryan Keenly Interested.

Lincoln, Neb., July 21.—The action of Justice Anderson of the supreme court of the District of Columbia in citing Samuel Gompers, John Mitchell and Frank Morrison to show cause why they should not be punished for contempt for alleged violation of the injunction against the American Federation of Labor and officers in the Buck Stove and Range company case has excited considerable gossip here. Mr. Bryan is taking the keenest interest in the matter, but makes no comment on it.

Despite statements to the contrary, Mr. Bryan announced he did not contemplate going into Vermont on any speech-making tour in expectation of influencing the election in that state in September.

### THE OFFICIAL BALLOT

By Far the Longest Ever Presented to Voters.

The ballot to be voted in the Democratic primary election next Saturday is 39 inches long, and contains the pledge, the names and residences of the 18 presidential electors, the names and residences of the 19 candidates for state offices, the names and residences of the 11 candidates for district offices, the names of 17 candidates voted for in Brazos county only, the names of all candidates for precinct offices and blank spaces for names to be written where no candidates have been announced, the names of candidates for county chairman and precinct chairman and for delegates to the county convention and the propositions for and against submitting to the people the question of statewide prohibition and the proposition for and against local option. It is by odds the longest ever submitted to the voters of Brazos county.

### TALK WITH THE BARK ON.

In a speech at Paris Monday, Governor Campbell addressed an audience of 2,000 people, mostly farmers. All except a few seemed in hearty sympathy with him and he was enthusiastically applauded.

Among the many new sayings of his address were these: "Some of the bucket shop people, following the gambling instinct, are offering to bet that the bucket shop law will be repealed by the next legislature. Let me tell you, it won't be repealed if I am the governor of this state when the next legislature meets. (Great applause and cheering.) And I will be governor then if I live. (Lougher and renewed cheering.) I recommend the enactment of another law to make the selling of liquor in local option territory a felony. The bootlegger is the sorriest man on earth. (Applause.) He would move on if confronted with the possibility of having to work in the penitentiary, if such a law were passed. If I am elected governor—and there is no doubt about it (applause)—I will urge the legislature to write that law upon the books, and then I reckon the bootlegger, too, will have a grievance against me. (Laughter and applause.) "You and I and all the people of Texas believe in a square deal, and we want to extend just treatment to every individual and to every interest. The insurance companies and all corporations are welcome; but they may as well understand that the people and not the corporations will make the laws of Texas. (Applause.) They (the oil companies) want to control the destinies of a great people and to exempt themselves from taxation, besides. They will never do it—as long as I am governor. (Applause.)

ALABAMA EDITORS TO MEET.

Messemmer, Ala., July 21.—Every thing is in readiness for the entertainment of the Alabama Press association, which is to begin its annual meeting in this city tomorrow. ### THE A. & M. COLLEGE.

Some Facts Regarding a State Educational Institution.

How the college serves the people of the state:

1. It affords the kind of training that best prepares our young men for taking part in the industrial development of the state.

2. It disseminates practical and scientific information among the farmers, truck growers, orchardists, nut growers, and stockmen of the state.

3. It actively co-operates with the state department of agriculture in conducting farmers' institutes.

4. It has taken a leading part in preparing the way for the introduction of the teaching of agriculture in the public schools.

5. It gives a two-year course in agriculture for young men who wish to spend one or two years in preparing for practical farm work. Young men over 18 years of age are admitted to this course without examination.

The equipment for next year will be superior to that of any previous year.

The new \$65,000 engineering building is expected to be ready by the first of January, 1909.

The agricultural equipment building is about complete. It will be supplied with the latest improved agricultural machinery for display and study.

The veterinary hospital is complete and will add greatly to the efficiency of the department of veterinary science another session. Diseases of domestic live stock and farm animals may now be investigated and treated in a thoroughly satisfactory manner for the first time in the history of the college.

The attendance has increased 51 per cent during the last two years.

A large number of students have already registered for next session. From present indications there will be more applicants than can be accommodated.

Letters from prospective students are so numerous that the secretary has been compelled to employ an assistant.—Houston Chronicle.

## SAVED BY HER MUSCLES

Baby's Athletic Training Comes Into Good Play.

### CHILD FALLS TWO STORIES

Owing to the instruction the little one had received from her father she is enabled to hold on to an iron bar until rescued.

New York, July 21.—Athletic training, which twenty months old Helen Graf had received from her father, saved the baby's life when she fell from the fifth floor of her home. The baby caught and held to the fire escape two stories below.

Joseph Graf, the child's father, is a foreman mason and an athlete of repute in Bronx clubs. He has three children, of whom Helen is the youngest. Graf had taught her to hold on to a broomstick while he lifted her from her cradle and carried her around the room. In this way the baby's muscles became hardened.

Mrs. Graf was on the fire escape hanging out clothes and did not notice the baby climb after her. She looked around just in time to see the child fall through the hole of the fire escape. Mrs. Graf fainted. On the fourth floor the falling child struck the rail of the fire escape and in that manner was thrown outside of the escape. By a chance, the child as she passed the third floor fire escape brushed the rail so close that her fingers, always on the alert from her broomstick training, caught the iron bar and held on.

In the yard below was Joseph Colombo, fourteen years old. He saw the suspended baby and climbed up the ladder and took her off.

Berlin, July 21.—The announcement made from Bad Nauheim that Vice Admiral Rojestvensky, who commanded the Russian fleet that was annihilated by the Japanese in the battle in the Sea of Japan in May, 1905, died here the night of July 19 from heart trouble, is incorrect.

A Russian named Rojestvensky did die at Bad Nauheim, but he was not the admiral.

### MANY AT FISH POND.

Probably the largest crowd to attend a similar entertainment during the present season was present yesterday at the Fish Pond barbecue, there being approximately 1,200 people on the grounds. The day passed off quietly and all apparently enjoyed themselves in the fullest extent of the term. There were edibles and dainties in abundance, and each individual of the immense assemblage was taken care of in the most creditable manner, despite the enormity of the undertaking.

Hon. W. C. Davis addressed the crowd in the forenoon and during the late afternoon a number of other candidates spoke. The Bohemian Club band rendered music during the day.

Today quite a number from here, including the orchestra, will go to Wheelock, while others will go to Sulphur Springs, both places giving barbecues.

Mid-summer furniture sale brings furniture from where it isn't wanted to where it is, and enables the person who wants it to buy it at a price made little by the man who wants to sell it. 196

W. E. Johnson returned from Houston Saturday, where he had been under treatment for spinal trouble, from which he has been suffering severely. A phone message from his home yesterday conveyed the information that he has received some benefit from the treatment, but his friends will be sorry to learn that he is yet far from well.

Our mid-summer furniture sale will be looked forward to by many a careful housekeeper. Come and see how fine the furniture is. Buchanan-Moore Co. 196

PROBATE COURT OPEN.  
Judge Board yesterday morning opened county court and called the probate docket. No orders were taken during the day, however, but court will continue open throughout the week for the purpose of disposing of any business which may come up.

## BRYAN RECEIVES FIRST BALE.

The first bale of cotton of the crop of 1908 was brought to town yesterday, and after being weighed at the Lawrence warehouse was consigned to Jno. M. Lawrence & Co. to be sold. It was raised by Major Robinson, a negro tenant on the farm of C. S. Jones of Harvey. To make it, the producer took 1,570 pounds of seed cotton to G. S. Packer's gin, where it linted 485 pounds. The seed was sold to the Bryan Cotton Oil and Fertilizer Company.

In addition to the purchase price of the cotton when sold and of the seed, the lucky owner received the premium of \$15 for the seed and the additional premium of \$10 for the first bale, both of which were offered by the Bryan Cotton Oil and Fertilizer Company, as announced in the Eagle last week. Additional premiums were paid by Bryan business men as follows: Lawrence Warehouse, \$5; Jno. M. Lawrence & Co., sack of flour.

This is with one exception the earliest first bale brought to this market in the last seven years. The exception was in 1902, when the first bale was received July 18. The record of first bales for the last five years is as follows: August 4, 1904; August 3, 1905; July 30, 1906; August 6, 1907; July 21, 1908.

## ENJOYABLE HAY RIDE.

In compliment to her guests, Miss Grace Hill and Mr. Henry Brashear of Welmar, Miss Aline Rhodes entertained the younger social set of Bryan Monday night with a hay ride. Chaperoned by Mr. and Mrs. H. G. Rhodes and Mrs. A. M. Rhodes, the jolly party was driven along the College road to the outskirts of the college, and on their return, several hours were pleasantly spent at the hospitable Rhodes home. At the proper time the guests were regaled with delicious refreshments. Those participating in the affair were: Misses Ruth Turrentine, Dorcas Parker, Robbie Nicol, Laura James, Helen De Maret, Lessie Mawhinney, Louise Batte, Masters Charlie Hudson, T. C. Nunn, Jr., Darden Chance, Guy Adriance, Philip Clarke, Ned Fountain, Gholson and Albert Rhodes.

## FREE BAPTIST REVIVAL.

Bryan, Tex., July 21.—The Free Baptist meeting closed at Kurten. The church was greatly revived, and many old professed Christians confessed to wrong living and promised God to live clean lives in the future. The results of the meetings were 15 additions to the Free Baptist Church and a number of others intend uniting soon with other churches. We thank all who have so kindly assisted us in these meetings, especially Rev. Crenshaw of Grimes county. T. C. FERGUSON, Pastor.

Frank H. Hitchcock, the new chairman of the Republican national committee, was born in Ohio, but has lived nearly all his life in Massachusetts. Almost immediately after his graduation from Harvard in 1891 he entered the government service as a clerk in the department of Agriculture at Washington.

## FILLED WITH LEAD.

**Deputies Near Birmingham Perforate Negro Miner.**

Birmingham, July 21.—A clash between deputies and negro miners in the Blue Creek region, twenty miles south of Birmingham, on the Birmingham Mineral division of the Louisville and Nashville railroad, Tuesday, resulted in one negro being shot and two deputies, Newsom and Whatley seriously wounded—the first named in a shoulder and the latter in a thigh.

The deputies were on guard on a hill overlooking the mining town when they saw armed negroes coming along the road. The deputies called to the negroes to stop, when a fight followed. The two negroes used their guns with precision. The deputies appeared to cut one man and he was literally filled with lead. The shooting created much excitement.

## TERRIFIC COLLISION.

**Nearly Forty Persons Sustain Injuries and Some Perhaps Fatal.**

Chicago, July 21.—Nearly forty persons were injured, some of them probably fatally, and eleven so severely they had to be taken to hospitals, in a head-on collision Tuesday between two Aurora, Elgin and Chicago electric cars at Lovedale Station, four miles north of Aurora.

The disaster occurred when the coaches were each running at a speed estimated at forty miles per hour. The crash was terrific. The two cars were telescoped more than half their length. The passengers, among whom nearly fifty women, were thrown through windows and tossed to the side of the track several feet away.

## War Seems Imminent.

Guatemala City, July 21.—According to information reaching here from Nicaragua and Honduras, these two central American states are about to become plunged in war. The reason for this is the help given by Nicaragua to Honduran revolutionists. Violation by Nicaragua of her treaties of peace has caused indignation throughout Central America.

## Feeding the Stock.

The victim of the following story, told in Mrs. Henry W. Cole's "A Lady's Tour Around Monte Rosa," was possessed of a keen sense of humor. Otherwise his dignity might have been ruffled by the unconscious revelation which came to his ears. In the course of Mrs. Cole's travels she met the Rev. Robert Montgomery, the poet, who told her an incident of his early career in the pulpit. When he was first admitted to holy orders he was appointed curate in a rural Scotch district and lodged in the house of a small tenant farmer. Notwithstanding his office of clergyman the family did not appear to hold their boarder in high veneration, for one day he heard the woman servant call out to her mistress:

"Missis, shall I feed the pigs first or gie the mon his dinner?"

There is a saying that people are as "homely as a mud fence." Did any one ever see a mud fence or know if there is such a thing?—Acheson Globe.

## Flavoring Tobacco.

Nearly all legitimate practice—scientific information are doctored in order to suit the tastes of different consumers. Each manufacturer—even in Havana—has his own secret methods, handed down from father to son, which are regarded as perfectly legitimate and necessary in the preparation of the soothing weed. Salt-peter is added to the tobacco to make it burn well, licorice, honey, molasses and maple sugar to give sweetness to it for the special benefit of chewers and rum to make it keep well and preserve its properties. Nearly every plant which will afford a perfume is used in the preparation of what are known as "fancy" tobaccos. But it is not true, as some suppose, that opium and deleterious drugs are employed, save in a few brands of imported Turkish and Egyptian cigarettes. Among the flavors used are coffee, tea, valerian, lemon, orange, geranium, sassafras, thyme, anise, mint and cinnamon. Gum and glycerin are occasionally employed to bind the tobacco particles so that they shall not crumble into dust. The various ingredients are made into a kind of sauce, into which the tobacco leaves are dipped or with which they are sprinkled.—London Answers.

## The Proper Adjective.

At the close of a revival service in Philadelphia the minister of the church went down the aisle, according to his custom, to greet the strangers in the congregation. "I don't think you are a member of our church," said he to one as he warmly shook his hand. "No, sir," replied the stranger. "Well, you will not think me unduly curious if I ask to what denomination you belong?" asked the minister. "I suppose," responded the other, "I'm really what you might call a submerged Presbyterian." "A submerged Presbyterian?" exclaimed the minister. "I should be glad if you would explain." "Well, I was brought up a Presbyterian, my wife is a Methodist, my eldest daughter is a Baptist, my son is the organist at a Unitarian church, my second daughter sings in an Episcopal choir, and my youngest goes to a Congregational Sunday school." "But," said the minister, agast, "you contribute doubtless to some church?" "Yes; I contribute to all of them," was the answer. "That's what submerges me."

## An Erratic Echo.

The late Sir John Leng had traveled in most quarters of the globe. On one occasion when visiting Spain he was asked at a certain spot by a traveling companion to test the powers of what was declared to be a wonderful echo. Sir John, slowly and deliberately, in rounded tones uttered the words, "Dun-dee Ad-ver-tiser," the name of the paper he owned. "Dundee Courier and Argus," the name of the opposition paper, came back as the echo! Sir John's friends had played him a trick.

Rear Admiral Burwell has returned.
